

“Freedom is never more than one generation away from extinction. We didn’t pass it to our children in the bloodstream. It must be fought for, protected, and handed on for them to do the same...”

(President Ronald Reagan)

To insure that freedom is handed on to the next generation, the Liberty & Law Institute employs an active, direct, focused and sustaining strategy to teach the text and timeless principles of America’s Founding Documents. Our Priority & Our Program

“When the architects of our Republic wrote the magnificent words of the Constitution and the Declaration of Independence, they were signing a promissory note to which every American was to fall heir.” (Dr. Martin Luther King, Jr.)

To promote reading and understanding of the Declaration of Independence and the U.S. Constitution in our nation’s students, the Liberty and Law Institute has created a carefully organized and scripted five lesson course on the text and principles presented in these documents. This course, entitled “A Nation of Liberty - A Nation of Laws,” is available at no cost to middle school students in public, private, religious, charter and home schools.

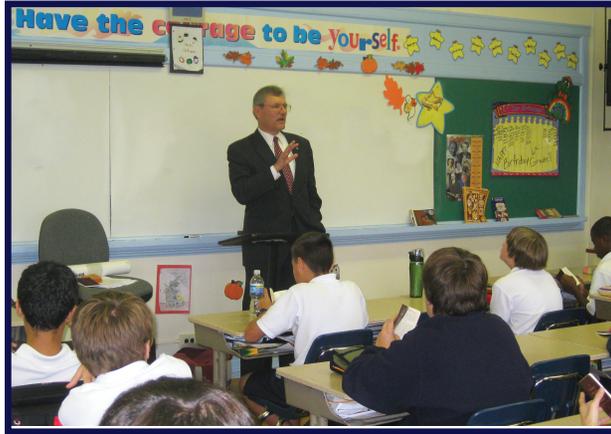

Over the span of five lessons, our qualified and trained volunteer instructors will teach America’s Founding Documents. Through lectures, Socratic dialogue and practical exercises, students will gain an understanding of the history and principles underlying these documents and how they continue to guide our nation’s government.

The Liberty & Law Institute presents America’s Founding Documents from a strictly historical perspective. Our instructors take care to avoid any discussion of current events, policies, or personalities to insure all lessons are textually sound, historically accurate, and professionally delivered. To help sustain our lessons, each student is given a complimentary, high quality pocket copy of the Declaration of Independence and U.S. Constitution to read and study for years afterward.

At the conclusion of “A Nation of Liberty - A Nation of Laws,” students will have a full understanding of and appreciation for America’s bedrock principles and thus be encouraged to be proud, active, and informed American citizens.

Who We Are

The Liberty and Law Institute is a non-profit, non-partisan, educational organization dedicated to teaching the text and timeless principles of America’s Founding Documents - the Declaration of Independence and the U.S. Constitution - to succeeding generations of young students.

The Problem

“A republic, if you can keep it.” (Ben Franklin)

A recent national survey of adult Americans by the Intercollegiate Studies Institute (ISI) produced distressing results. It determined that 71% of adult Americans have very little understanding of the basic functions and structure of America’s Constitutional system of government. Such an overwhelming failure to grasp the underlying principles of our government denotes a lack of teaching and reading of the documents upon which our nation is built.

As citizens of this great Republic, it is our responsibility to know and uphold the principles upon which it was founded, in order to maintain its integrity and ensure that its bedrock principles of liberty and law endure.

The Liberty and Law Institute is a non-profit and non-partisan organization which accepts no government funding. We rely solely on contributions from individuals, foundations and organizations to support our mission of teaching America’s Founding Documents to young Americans.
