09 October 2009

Dear Mr. Skiver,

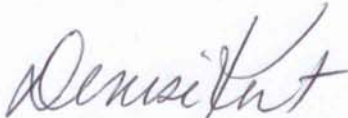

Thank you to the Liberty & Law Institute for presenting recently to our eighth graders, "A Nation of Liberty - A Nation of Laws." The five day course that was provided was based on fundamental principles of our Nation and founded on the Declaration of Independence and the US Constitution.

Franklin Academy's students truly benefited from the presentations, dialogue and query about the topics presented. Now more than ever, a focus on the foundation of our Nation is most important to the youth we serve. The Liberty & Law Institute helped us fill an academic gap by presenting true, unbiased information about our Nation and its founding documents. The learning experience was solidified by each student receiving their own pocket-size copy of our Nation's founding documents to reference now and in the future.

"A Nation of Liberty - A Nation of Laws," provided solid academic value and tangible benefits. It was also well received by our students, staff, parents, and school board. I highly recommend the Liberty & Law Institute to any middle school who is looking to make their History curriculum more robust and thorough.

Thank you for the services the Liberty & Law Institute provided our students. We look forward to hosting your course again next year.

Sincerely,

Denise Kent
Principal K-8
