Dear Mr. Skiver:

I would like to thank you and Mr. Connelly for taking the time last week and coming to Saint Mary Magdalene and work with our 8th grade students. I cannot stress enough how important programs like yours are to the youth of America. I feel that many of our citizens today have lost their identity and roots to American citizenship and your program helped greatly to make my students understand the sacrifices that were made by so many Americans to insure that we still enjoy the freedoms that God has bestowed upon us and our great nation.

I asked one of my students, a Christopher Fernandez, what he thought about the program. His response to was that it was "amazing" and he really learned a great deal. He stated "the program was really worth it" and recommended to me that I continue doing it in the future.

Any time you can engage these teenagers in debate about the history of our country and how that history actually affects their lives, the better off they and our country will be. I cannot thank you enough for sharing your knowledge and expertise with my fine students. They will be better people for it and hopefully, better Americans. May God shine down upon you for the gifts you have given my students.

Sincerely,

Gary Callus
